

Interventional Radiology

UNIVERSITY OF WISCONSIN
SCHOOL OF MEDICINE AND
PUBLIC HEALTH

PHASE 3 GRADUATION REQUIREMENT CONSIDERATIONS

Inpatient Acting Internship (IAI)

- Surgery

Ambulatory Acting Internship (AAI)

- Any

Basic Science Selectives

- Clinical Anatomy & Radiology
- Art & Science of Resuscitation
- Principles of Mechanical

Ventilation

- Shock/TTE Consults

Public Health Selectives

- Any

Electives

- 4 week IR Elective
- 2-week Diagnostic Radiology
- 4-week peripheral vascular
- 4-week transplant
- 2-week urology
- 2-week general surgery
- Critical care rotations
- Infectious Disease

For success in Phase 3 and applying to Radiology, we recommend:

- Meet with Mark Kleedechn, IR Residency Program Director.
- Focus elective rotations in surgery and critical care
- Join and participate in the SIR RFS
- IR specific research is essentially required.
- 1-2 away rotations at your targeted programs are recommended.
- You must apply to another specialty besides IR. Almost all candidates dual apply to DR, as this gives them the opportunity to pursue ESIR

SCHEDULING GUIDELINES

Phase 3 rotations in Radiology:

4-week IR Elective

Diagnostic Radiology (920)

1-2 away rotations recommended
(discuss with Program Director)
